Webinar Series

## New Continuous Security Monitoring with ImmuniWeb

**March 7**  
10am & 4pm CET

Live. Online. Free.  
via **zoom**

**Multilanguage**

Dear TANAAKK partners and clients,

On behalf of ImmuniWeb, as a partner, we are glad to invite you to the upcoming educational webinar "**New Continuous Security Monitoring with ImmuniWeb**," taking place on March 7, 2024.

**During this 45-minute webinar, you will learn about:**

- New laws and regulations that require continuous security monitoring
- Implementation of cost-efficient and effective continuous monitoring strategy
- Continuous Breach and Attack Simulation (CBAS) with ImmuniWeb
- Continuous Automated Red Teaming (CART) with ImmuniWeb
- How to pragmatically compare vendors and solutions

**Two identical Zoom sessions, followed by a live Q&A, will take place on:**

- March 7 at 10 am CET [Register](#)
- March 7 at 4 pm CET [Register](#)

The number of seats is limited, so please confirm your participation as soon as possible by clicking on one of the registration links above.

More information about the webinar and CPE credits is available [here](#).

We look forward to welcoming you to the webinar!

Best regards,

 TANAAKK
